It is possible that a better man than Boies could be selected for first or second place on the ticket, but it is doubtful if there will be.

The big lunged, long-waisted men who are already making Chicago howl for Boies, should save their wind until it will do some good.

The Pettis county prohibitionists no unvoted a most excellent man for county court judge in the eastern district, in the person of Mr. J. R. Stuart, but, as he can not possibly be elected, he should withdraw in favor of Judge R. E. Ferguson, a good man and a good judge, who should have a second term.

Let the Sedalia democratic club go into the campaign for victory. Let there be no half way jobs and the work will tell. It should be remembered that the campaign this fall will be a sharp one, and while Missouri is too reliably democratic to change, yet the opposition party is on the alert and will endeavor by every means known to trickery to encompass, if not victory, then a cutting down of democratic gains, which should not be. Work tells, and especially where there is much to contend with.

The old, established and well known live stock commission firm of Brown Brothers & Smith, of Chicago, has opened a branch office at the National Stock Yards, East St. Louis, Illinois, for the sale of live stock on commission. This reliable firm has always had a good share of Missouri business, the Messrs. Brown Brothers being natives of this state and well known in it. Their office in East St. Louis will afford additional facilities to Missouri shippers. Their card appears in this paper, to which attention is called.

The Globe-Democrat's illustrated page was an excellent introduction to the great convention, notwithstanding the grotesqueness of many of the figures. The most noticeable thing about it, is the wonderful march of progress which it exhibits. Less than ten years ago, an illustrated page, such as is shown in the Globe Democrat would have been considered a great feat, now it is merely an expression of enterprise which is well worthy of commendation, but which is enterprise, nothing else. It is quite possible, however, that the time is coming when the newspaper will leave the illustrated magazines so far in the rear that there will be very little encouragement for their publication.

Senator Carlisle, who is probably more able to speak knowingly than any other man in Chicago says: "Much as I admire Mr. Cleveland, and desirous as I am to see him president for another term, I am forced to the belief that it would be unwise and inexpedient to nominate him." Mr. Carlisle has reached this conclusion because he thinks Mr. Cleveland cannot carry New York. Certainly, no man can successfully forecast the future, but Mr. Carlisle's opinion is worth weighing well, and democrats

who have the true interests of the party at heart, should be prepared to face the matter as it stands and not endeavor to force Mr. Cleveland into a nomination which may prove disastrous. There is other splendid available timber, and the party is not reduced to one man by any means.

The people of the western district are to be congratulated on the high standing, strict integrity and unceasing labors of their representative on the county bench. Judge H. Conway's party friends have expressed an implicit confidence in him by tendering a renomination without opposition, and this will be handsomely ratified at the polls in November. Judge Conway is not only popular with the people, but he is a gentleman of excellent judgment, well versed in county affairs and of unimpeachable integrity. His re-election will be of the greatest importance to the entire county, as it is an acknowledged fact that he has made a splendid member of the county court.

The adoption of the Australian ballot system by so many of the States which may be considered doubtful is going to be very helpful to the democratic ticket in the presidential election of 1892. This especially true of Indiana and New York, the pivotal States in which enormous corruption funds have been as effectively used in the interest of the party of monopoly and high tariff. Under the secret ballot which will be in force in Indiana, Mr. Dudley, if he were so disposed, could not march his purchased voters up to the polls and vote them in blocks of five. Mr. Quay will not drop \$400,000 in Brooklyn alone, for the purchase of voters and trading in votes in the metropolis and elsewhere in the State will be greatly lessened, if not entirely prevented, by the secret ballot law. The democratic outlook is very bright.

It is generally conceded that the office of county judge is one of the most difficult to fill in a satisfactory manner. And yet, in this respect, Pettis county is most fortunate at the present time, as the condition of county affairs will go to show. In the eastern district Judge R. E. Ferguson is a candidate for re-election, and when his faithful work is taken into consideration, should be chosen with a flattering unanimity. He is a gentleman of sound judgment, of a progressive spirit and altogether unbiased in the performance of his duty. He belongs to that clear-headed class of men who are capable of judging impartially of the wants of the people and labors for their best interests irrespective of locality. It is thought that Judge Ferguson will have no difficulty in re-election.

In response to an article in the New York Tribune, entitled "What Business Men Want" and which sums up by asserting that they want Harrison and Reid elected, the New York World heads an article "What Business Men Don't Want," and among other things says:

"What business men don't want we know from the way in which business men voted at the last general elections. They don't want another increase of \$60,000,000 in the pension roll like that made during the last three years. They don't want the country's resources squandered after the fashion set by the Billion Dollar Congress. They don't want the treasury bankrupted by the granting of bounties and subsidies.

They don't want new taxes at a time when taxes already outrun the heaviest levies of the war period. They don't want the industries of the country crippled by the imposition of taxes on the raw materials of manufacture.

They don't want to see trade legislation against as if it were a crime. They don't want foreign commerce crippled by a cocky and bumptious foreign policy.

They don't want currency inflation by the purchase of silver with paper promises.

They don't want that lapse of the silver standard which even Mr. Sherman declares is threatened by the law of 1890.

They don't want half the people of the country treated as the public enemy at the behest of "Johnny" Davenport.

They don't want to execute a permanent lease upon power in this country to any political party. They don't want the postal service

farmed out again to a bargain-counter incapable.

They don't want the statistics of the country's population and industries falsified again for political effect.

They don't want another four years of Benjamin Harrison.

These are the things which the business men of the country most emphatically declared that they did not want when they cast their votes in 1890 and overwhelmed the republican party like a flood. These are the things they will declare by their votes in November that they don't want now.

If the democratic convention shall proceed decently and in order to the nomination of a democrat for the presidency, whoever that nominee is will fare as well, it may be thought, as any other nominee. Certainly the nomination will command the support of every person calling himself a party democrat. Hill, for instance, is not a favorite in Illinois. He has never been here. The democrats of Illinois have never heard him upon the stump. They have known of him merely. They have seen him at a long distance. They are not greatly impressed by his public record, yet if he shall be nominated at Chicago there is very little doubt that democrats of Illinois will give him the full party vote. One of the delegates at large named by the Albany convention to Chicago and supporting Senator Hill is Henry W. Slocum, who was a corps commander during the war of the rebellion and is one of the most distinguished, as he was one of the most capable, of volunteer soldiers. He says: I believe that should Cleveland be nominated at Chicago he will receive the hearty and earnest support of the state organization. In my opinion any statement to the contrary is false. I also believe whoever the nominee of the democratic national convention may be that he will receive the earnest, hearty, and enthusiastic support of my friends." Everybody knows that this generally will be the rule. All the men who run around declaring that this and that calamity will happen if the particular candidate is not chosen are men of like character with those at Minneapolis shouted death and destruction to Harrison, and the convention not yet a week over, and now declaring with great appearance of enthusiasm, that nobody can be nominated who will be able to defeat Benjamin Harrison, the champion of protection and the noble advocate of something else. The yawper business is much too cheap to entitle it to respectful consideration or to induce a self-respecting person to embark in it. The yawper is nothing but a yawper yawping his own inconsequential yawp.

THE COUNTY'S FINANCES.

In this issue of the BAZOO is published the financial statement of Pettis county, showing the receipts and expenditures for the year ending May 1, 1892. It is by far the most complete, concise and satisfactory exhibit of the county's finances ever published, reflecting much credit on the able, economical and judicious administration of our present county court, and at the same time highly complimentary to our efficient county clerk, Thomas F. Mitchum.

Every tax-payer in Pettis county should carefully read this statement that they may know exactly what amount of taxes are being collected and how expended. For the benefit of those who do not wish to follow the details of a lengthy statement, the clerk has so classified and summarized the same, that one may, in a moment's time, obtain all the information he may desire upon any particular class of the county's affairs.

The county's bonded debt has been very materially reduced, during the past year, and it is a source of pleasure to know that one-half of the entire court house bonded debt will have been paid by July 1, 1892.

The various accounts are all in a good, healthy condition, and in many instances handsome balances are shown, bespeaking a well-filled treasury, a good credit and an excellent condition of affairs, all of which are most gratifying to the tax-payers.

GRAIN MARKETS.

KANSAS CITY, Mo., June 18.—Cash wheat sold on 'change to-day at just about yesterday's prices throughout. Possibly the low grade soft wheats were shaded just a little. There was a very good demand for wheat, but buyers were perfectly willing to pass samples by rather than make the least concession on the price. A round lot of 25,000 bushels No. 3 hard, out of elevators, was reported sold at 67c Mississippi river. There was some milling demanded for soft wheat.

Prices were quoted at Kansas City as follows: No. 2 hard wheat 65c-67c; No. 3 hard wheat 61c-63c; No. 4 hard wheat 56c-58c; rejected hard wheat 52c-55c; No. 2 red wheat 72c-73c; No. 3 red wheat 68c-70c; No. 4 red wheat 64c-66c.

Sales by sample on 'change on the basis of the Mississippi river: Hard Wheat—No. 2 Kansas hard, 1 car choice 75c; No. 2 hard, 1 car choice 73c; 2 cars 72c; 3 cars 71c; No. 3 hard wheat, 1 car choice 69c;
